\_\_\_\_\_

**Your prescribed recare appointment is every  
( ) 3 months ( ) 4 months ( ) 6 months ( ) other \_\_\_\_\_**

We are proud of our dental services and what they do for our patients. Our goal is to provide superior value while correcting your dental problems. This means that the treatment we provide will last for many years into the future saving you time and unnecessary expenses.

The long term success of our dental treatment for you is dependent on: How well you care for your teeth, eating a sensible diet and adhering to the schedule we set for you for the frequency of your professional examinations, cleanings and fluoride treatments. It is also dependent on the products we recommend for you and the frequency of professional continuing care visits which depends on your individual situation.

**With these thoughts in mind, we are pleased to offer the following limited dental warranty:**

### **All Porcelain Crowns, Bridges, Inlays, Onlays and Porcelain Veneers**

If these porcelain restorations fracture with normal use during a period of five (5) full years from the date of their initial placement, we will replace or repair these at no additional charge.

### **All Gold and Porcelain fused to metal Crowns, Inlays, Onlays and Bridges**

If our all gold or porcelain fused to metal restorations fracture with normal use during a period of ten (10) years from the date of initial placement, we will replace or repair them at no additional charge.

## Removable Protheses

If our definitive removable protheses (full and partial dentures) fracture with normal use during a period of two (2) years from the date of initial placement we will replace or repair them at no additional charge.

## Teeth Whitening

If our teeth whitening services are unsatisfactory immediately following whitening services, we will retreat at no additional charge.

## Composite Fillings or Bondings

If our composite restorations or bondings fracture with normal use during a period of two (2) years from the date of initial placement, we will replace or repair them at no additional charge.

## Dental Implants

If our implants fracture or fail within a period of two (2) years following the initial surgical placement, we will replace or repair any fractured or failing implant at no charge or refund your fee at our discretion. (The good news is that the vast majority of problems that can occur will happen within the first year of treatment.) Exception: A diabetic condition that goes from controlled to uncontrolled can cause serious damage to all oral structures including the supporting bone around implants. **The good news:** We don't perform dental implant therapy for uncontrolled diabetics. So as long as a diabetic is consistently well controlled, there is no problem with dental implant therapy. **More good news:** Our long term success rate of 19 years is 90 +%. **Even more good news: We have experienced only one implant fracture in all that time.**

## Conditions

To keep this warranty valid, you **must:** 1.) Maintain uninterrupted membership in our practice. 2.) Keep your prescribed regular continuing care appointments (with no appointment varying more that (30) thirty days of our recommended schedule). 3.) Maintain your account in good standing and 4.) Have all recommended dental treatment(s) performed by Dr. Mark W. Wilhelm with the exception of treatment recommended elsewhere. This warranty does not include gum line desensitization, provisional removable protheses, night guards, nor does it cover damage to teeth or dental protheses caused by accidents, trauma, neglect or improper use (e.g. grinding, clenching, chewing ice or biting non food items).
